

V-book, V-key, V-card

A package for the videos

THE TEMPLATE

The brochure is printed from a template sent by the client (file PSD, AI, PDF). If necessary, we can provide a predefined template. Later, we check the resolution and the size of the file to ensure a good quality of printing. We also give advices for the video quality (format, definition, encoding).

THE MANUFACTURING

Our brochures are made in factory at Shenzhen in China. The orders are accepted from 160 pieces. The shipping is done between 30-45 Days from Hong Kong where is located our company.

The V-book, V-bkey and V-card allow to watch videos and photos inside a printed brochure. Including a LCD screen with an internal memory and a USB socket. It's an excellent tool to promote an activity or an event.

The video brochure mixes the paper to electronic components. It's an easy tool to use : open it and the video starts, close it and the video stops.

The V-book A4 / A5 is made with 2 printed pages recto-verso including an LCD screen 7 inch (18 cm). The V-card is a video business card with a 2,4 inch screen which targets mostly a professional using.

At last, the V-key is a brochure A5 with a 5 inch screen and a key to connect automatically your computer to the website of your company.

These tools are also an excellent *package* for corporate or wedding movies.

Our video brochures

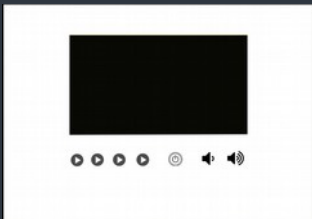

USB PORT

The USB port allows to charge the battery and to connect to a computer. You can copy the videos and photos on the memory by drag and drop. The V-book can run 2 hours.
